

How to Register an Individual the Improving MI Practices (IMP) Website

Great news! There is now an additional training resource that we are able to offer our providers. Improving MI Practices is online training platform that can be accessed at www.improvingmipractices.com. Improving MI Practices offers training alternatives for required trainings. You will find links below.

Simply follow these simple steps to create an individual account with Improving MI Practices and to access the trainings:

For an individual account

1. Go to [IMP website](http://www.improvingmipractices.com) to create a new account
2. Click on the icon **"Create an Account"** and follow the instructions for register your account.
3. Once the registration is complete and account is active, follow the instruction to set up the rest of the account, and then search for the appropriate class using the search bar.
4. To find a course, click on the  icon and type the name into the search bar, click on the course name, then click on "Take This Course." Upon course completion, a printable certificate is available. Below are the equivalent course names that you can click on as well.

CMHA-CEI Courses	Equivalent Course Offered by Improving MI Practices
Blood Borne Pathogens/ Infection Control	Infection Control for Direct Care Workers or Infection Control & Standard Precautions
